

Are you 18-40 years old with good hearing?

We are looking for volunteers to participate in a research study to understand the effects of noise exposure on hearing (*Aging After Noise: Biomarkers, Clinical Assessment, and Pharmacotherapy of 'Hidden' Noise Injury, #3458*).

The VA RR&D National Center for Rehabilitative Auditory Research, VA Portland Health Care System, 3710 SW US Veterans Hospital Road, Portland, OR 97239

If interested, please call
Serena: (503) 220-8262
x54665

- The study consists of **one 2 hour screening visit and up to 5 additional test sessions**.
- **Test sessions take about 2.5 hours each** and include questionnaires and a series of hearing tests.
- The hearing tests will include listening and responding to sounds, repeating words, and measuring certain physical responses as you listen to sounds.
- Qualified subjects will receive **\$25 for the screening visit and \$25 per test session**.

By participating you will be contributing to research that will benefit patients in the future. You may benefit from receiving a hearing test and learning what your hearing is like. This is a research study and should not be considered to be treatment.
